  - 6.3 **Virtual Business Hubs.** AiRS is participating in a project for rural communities in East Sussex. The project has two main goals, both aimed at supporting the needs of small, medium and home-based businesses. The first stage is to support the initiation of grassroots business support networks, each run and led by local people, for the benefit of businesses in their locality. These groups could provide informal networking opportunities, help to identify

local business issues and potential responses to them, as well as offering a mechanism through which business advice and support requirements can be delivered. The second key element of the programme is the provision of free business support to participants in the networks. Our project partners at the [Let's Do Business Group](#) will offer flexible business advice to groups or individual businesses on a variety of themes, including the offer of up to 12 hours of comprehensive tailored support for individual businesses.
